Intersectional Analysis of the Sexed/Gendered Brain

NeuroGenderings Network Meeting
Critical Approaches to Neurocultures and Neuropolitics
The Problem of Categorization in the Face of Diversity
Binary Brain Sex versus the Mosaic Brain
Intersectional Approaches to Mental Health
Transgender and Genderqueer Intersections
Diversifying Research Communities

2 - 6 March 2020, Leiden, the Netherlands

Scientific Organizers
- Katherine Bryant, University of Oxford
- Hannah Fitsch, Technical University of Berlin
- Anelis Kaiser, University of Freiburg
- Annelies Kleinherenbrink, Tilburg University
- Mal Pool

Topics
- NeuroGenderings Network Meeting
- Critical Approaches to Neurocultures and Neuropolitics
- The Problem of Categorization in the Face of Diversity
- Binary Brain Sex versus the Mosaic Brain
- Intersectional Approaches to Mental Health
- Transgender and Genderqueer Intersections
- Diversifying Research Communities

The Lorentz Center organizes international workshops for researchers in all scientific disciplines. Its aim is to create an atmosphere that fosters collaborative work, discussions, and interactions.

For registration see: www.lorentzcenter.nl

This workshop is part of the NIAS-Lorentz Program, which brings together perspectives from humanities & social sciences with natural & technological sciences.

The neural network under observation, colored in heat map shades, combined with a blank space to initiate intersectional research.

Poster design: SuperNova Studios . NL
